

CPSC /Broker Visit

July 13, 2018

8:30 am – 11:30 am

CBP Office – 7501 Esters Blvd.

CPSC will present an overview of the CBP/CPSC partnership, CPSC import targeting, the CPSC exam process, what occurs when a sample(s) is collected for CPSC testing, timelines, documentation, and best practices.

We'll also demonstrate the range of screening equipment and tools CPSC deploys in the field. In addition, we will show and discuss several exhibits of non-complying and complying products for a first-hand view into the common violations we encounter.

We'll also leave a block of time for questions and open discussion from the participants.

Free to the first 25 to RSVP!
